Celebrating
20 *years*

Oconee Valley Healthcare Celebrates 20 Years of Community Health

2021 marks Oconee Valley Healthcare's 20th anniversary of providing cost-effective and accessible primary healthcare. On this special anniversary, we want the community to know that your trust and support has always been the biggest drivers for our continued growth! We are so grateful to be a part of a community that entrusts our physicians and company with your health. We are so excited to see where the next 20 years takes us!

PRESCHOOL BUILDING GETS A REMODEL

In the spring of 2020, OVH was awarded a grant intended to expand access to COVID testing. The community's response to our temporary sick clinic lead the leadership team to make the decision to make it a permanent fixture with the funds from that grant. In addition to the sick clinic, OVH will be expanding the pharmacy to a larger space and adding the access of a drive thru window. Both of these spaces will be located within the old preschool facility of the Greensboro Office. We are excited to see where this expansion takes us!

EMPLOYEE OF QUARTER 1

Join us in congratulating Susy Benedict as our Employee of Quarter 1! Susy works as our Technology and Support Specialist and also assists with translating for our Spanish-speaking patients. As Employee of Q1, Susy will be eligible to be chosen as Employee of the Year.

"Because not only has she been fulfilling her IT job duties, but has been translating for both the Medical offices and the Sick clinic. It has been especially demanding with the COVID ongoing. She always makes herself available and it is always with a smile."

Thank you for all of your hard work and dedication to OVH. Congratulations, Susy!

ADVOCACY EFFORTS

In March, representatives from Ocone Valley Healthcare attended the Virtual Policy and Issues Forum hosted by the National Association of Community Health Centers. The focus of this conference is to talk about critical health care issues and hear from leaders and top health care officials. Health Center representatives also had the opportunity to meet with Congress members virtually to advocate for the Community Health Center model of care. We are so excited to take what we learned and apply it to our health center!

Thank you for letting us share our mission with you.
