### Creating "Compassionate Conversations" with Augusta University and the Georgia Council on Substance Abuse

Augusta University and the Georgia Council on Substance Abuse joined our Providers during our quarterly Provider Meeting in June. Our Providers participated in a training that focused on "Compassionate Conversations" and being an ally for substance abuse recovery in our community. During this training, our providers practiced intentional listening, Motivational Interviewing, and ways to use empathy in the field. We are thankful for this partnership and are excited to take this information and use it to help our community!
