Breast Cancer Awareness Month

Oconee Valley Healthcare advocated for breast cancer awareness and prevention during the month of October by partnering with the Greene County Retired Teachers Association and St. Mary's Good Samaritan Hospital for a couple of activities. First, we met with the Retired Teachers Association in downtown Greensboro to "Paint the Town Pink". We spent the morning walking around to the businesses downtown and hanging pink ribbons. Secondly, we teamed up with St. Mary's Good Samaritan Hospital for our yearly initiative, the Power of One. The Power of One promotes taking steps to detect breast cancer early by offering free mammograms for ladies who meet certain criteria. Strong alone, unstoppable together!

ADVOCACY

Oconee Valley Healthcare applied for and was named a Gold Level Advocacy Center of Excellence (ACE). Achieving this status requires dedication to and prioritization of advocacy at health centers. “An Advocacy Center of Excellence, or ACE, is a Community Health Center or Primary Care Association that creates a culture of advocacy to ensure that policymakers at all levels of government commit to investing in affordable, equitable, and innovative care that health centers provide. ACE levels recognize consistent engagement, success, and demonstrated an ongoing commitment to making advocacy an organizational priority. ACEs are actively engaged and involved with NACHC and federal policy issues, as well as their state Primary Care Association and key state and local-level policy issues impacting health centers and their patients,” according to the Health Center Advocacy Network website. We are so proud to have achieved this status and to join this group of elite Community Health Centers!
